

Overview:

YMCA Community and Youth Project is delivered from a number of centres in Dublin City centre; YMCA buildings Aungier Street and Iveagh Trust youth space on Kevin Street.

We provide a fun safe environment where every young person has the opportunity to engage in activities which encourage personal growth and develop life skills through voluntary participation.

We offer a wide variety of programmes each day ranging from homework club, cooking, arts and crafts, drop in's, sports and games to residentials and summer projects. We also run targeted groups such as 'The Junior Leadership Programme' and 'The Big Step' from junior to senior cycle in school.

Our aim is to enhance the personal, social, spiritual and political development of young people based on their individual needs.
