

Overview:

Carbery Youth Space is a wrap-around service for young people. We provide a safe space which offers freedom, support and guidance for young people aged between 12 and 24yrs of age.

Programmes are developed to support the overall well-being of young people and are tailored to suit all participants through one to one and group work. This youth led service is fun, creative, innovative and above all else inclusive to every young person who participates.

The service will provide opportunities for young people to undertake actions corresponding to their own aspirations and to engage with and assume responsibilities in their local communities.

Young people in West Cork, primarily in the town of Clonakilty, with satellites to Skibbereen and Dunmanway will avail of the service.
