

## Overview:

ASP Youth Project is a community based voluntary youth project that provides a number of youth work services to young people in North-East Inner-City Dublin.

The project was established in 1983 to provide activities for local young people to inspire and empower them to reach their full potential.

Our programmes incorporate youth work values and principles to ensure the best outcomes for our young people. The services we provide to young people include; adventure/outdoor activities, sports activities, drop-in's, residentials, exchanges and small group programmes.

The ASP Youth Project vision is that all young people living in our community are empowered to reach their full potential. Our mission is to provide the best possible youth work service to enable this vision to be realised.
