

## Overview:

Southill Club2gether is a youth work service, based in the community centre, Southill Hub. We work with young people in the area on a weekly basis to provide activities and programmes to support their development. We believe that young people are best placed to identify what they need from their youth programmes and work from a youth led perspective.

We provide informal youth clubs and structured programmes throughout the year. We also support young people on a one to one basis, when needed, and operate a referral process to specific services where appropriate. During the summer months we run activity based summer camps and also run workshops and programmes for young people during mid-term breaks.

We aim to work with young people to make Southill a great place to grow up.
