

Overview:

The Drug Education & Prevention Strategy (DEPS), delivered by Limerick City Community Development Project is a community based drug education and prevention project supporting young people identified by LCETB as having additional needs.

Limerick City DEPS works with young people aged 10- 24 years from Limerick Regeneration areas who are in need of additional supports in relation to substance misuse through tailor made drug education programs and prevention programs designed to engage young people with additional needs.

Young people are central to this process from identify needs to the program delivery.
