

Overview:

Belvedere Youth Project (BYP) delivers targeted programmes to young people between the ages of 10-24 years and has endeavoured to be at the forefront of best practice in youth work.

Some of our activities that young people can become involved with are:

- Arts & crafts
- Sporting activities
- Homework club
- College support
- Work Readiness
- Residentials
- Issue based programmes

The project provides a service to young people that is inclusive & young person centred. The voice of the young person underpins all the work BYP carries out. The work is developmental and empowering with a view to encouraging and supporting young people to achieve their full potential through relationship building, listening, trust, acceptance and respect.
