

## Overview:

The FAI Development Officer will work closely with the football clubs in the marginalised / disadvantaged areas to increase and train the local volunteer base. Through Youth Groups, Garda Diversion Groups and local schools he will endeavour to link the marginalised young people to the clubs.

Together with agencies like Treo and Youthreach etc., he will identify young people at risk, recovering addicts, and former criminals etc. to attend our "couch to coach" programme. This entails a full day education course once per week for eight weeks.

The Development Officer will also be in regular contact with all relevant agencies via personal visits to centres and activity.
