Overview

The Foróige West Donegal UBU operated project provides an out-of-school support to young people in their local communities to enable them to overcome adverse circumstances and achieve their full potential by improving their personal and social development outcomes. The project contributes to the empowerment of young people, enabling them to develop their abilities and attributes, to think for themselves, to make things happen and to allow them to contribute to their community and society. Project activities are designed to provide opportunities for young people to develop knowledge, skills and attitudes, particularly in personal effectiveness, social competence, character development, educational achievement and community development. The service will be delivered in English and Irish, dependent upon the needs of the young people.
