

Overview:

Crosscare Swords Baldoye Youth Services's mission is to provide innovative and relevant services to those most in need. SBYS operates from its purposely designed youth centre in Swords Village.

This facility was officially opened in February 2013 by the Minister for Health, and allows for a wide range of programmes, activities and projects to be run, meeting the needs of young people in the area. The Youth Service and its team strive to create a friendly, warm and welcoming atmosphere to all the young people in the local area.

The service has an open door policy and is inclusive of all young people aged 10-21 from the community. Swords Youth Service works from the Crosscare Youth Work Model of Service Delivery.

We aim to provide innovative and relevant services to those most in need at the times it is needed the most.
