

Overview:

The Munster Rugby Limerick Community Rugby Project provides young people with the opportunity to develop and express themselves through the medium of sport.

We work with young people aged 10-24 in disadvantaged communities across Limerick City and County by providing after-school programmes, activities and outreach.

The project also aims to develop partnerships with local statutory and voluntary bodies in order to maximise the development of communities through sport. Working times include evenings and weekends.

Limerick Community Rugby Project

1. High Performance Centre. UL Area. University of Limerick. Limerick: V94 X9VK

2. Irish Independent Park. Tramore Road. Cork: T12 FX40
