

Overview:

Crosscare Dundrum Rathdown Youth Service provides a comprehensive, focused youth service in response to the needs of young people within the DDLETB Dundrum Rathdown area.

We work in partnership with young people aged 10-24 years in order to enable them to make informed decisions to become active participants in their own lives and their communities.

It is our aim that every young person, through their personal and social development, is given the opportunity to reach their full potential. Service provision includes formal and informal programmes including recreational activities and residentials.

We also support and advocate on behalf of young people on a 1:1 basis. Our service is welcoming and inclusive and takes place within centres that are relaxed, friendly and open at times that suit.
