

Overview:

Follow Your Dream (FYD) Youth Project actively engages young people where they are facilitated to reach their full potential. Space and time has been created for young people who are at particular risk of engaging in criminal behaviour, complex family dynamics, experiencing crisis and/or risk of early school leaving or have left school.

Young people are engaged where the relationship with youth workers are paramount. Young people are given opportunities to socialise in safe, positive environments with their peers and mentors, avail of youth leadership programmes and participate in developmental groups.

FYD is designed to improve the lifestyle choices of young people, and to create a culture of empowerment and accountability.
