

Overview:

The Foróige Ferrybank Drug Prevention Project is provided by Foróige. Our purpose is to develop and implement youth work interventions that place the young person at the centre and is implemented in their community. The project is promoted & funded by the Department of Children & Youth Affairs and Waterford Wexford Education & Training Board.

The main purpose of the Project is to provide young people aged between 10 & 24 with a safe space within their community where they can engage in enjoyable activities that help progress their personal development. As a result, they will enhance their decision making & social skills and will also be less likely to participate in substance misuse or antisocial behaviour.
