

Overview:

Kildare Youth Services supports young people, children and families in Co. Kildare & West Wicklow to enable them to live a full and active life within their communities and society.

Kildare Youth Services delivers a range of projects that work with young people, children & families across County Kildare and West Wicklow, through an integrated youth service model.

Kildare Town Youth Project is a community-based project that provides development and learning opportunities and services for young people in Kildare Town. They are provided for and with young people, their families and communities to be responsive to their changing needs.

We use a Youth Work approach working with Young People aged 11 – 25 years through recreational and educational programmes in a group setting.
