

## Overview:

Ballybeg Community Youth Project works with young people age 10 - 24 years, from the Ballybeg community in Waterford City. Young people are involved in developmental, recreational and informal educational activities, based on their identified needs and interests.

We aim to build the capacity of young people to enhance their lives and future prospects, through the development of personal, social and practical skills.

Programmes focus on addressing the 7 social & personal development outcomes, and include weekly core developmental groups and social and recreational programmes. Additional activities include; special interest groups such as STEAM programme, science club, fretwork, arts and crafts and drama, as well as seasonal programmes during school breaks throughout the year.
