

Overview:

CABRA for Youth Clg is a community based independent youth project founded in 2008 working directly with young people aged 10-24 years living in the greater Cabra area.

We offer young people in Cabra a fun, safe and supportive environment within which they can voluntarily engage in programmes and activities based on their needs and interests.

Our priority at Cabra for Youth is to promote and encourage the active participation of young people from the Cabra area who are deemed to be at risk, vulnerable, and/or marginalised within our community.

Cabra for Youth engages with young people through non formal youth work processes, including but not limited to targeted group work, one to one support, outreach, large group events, and weekend/holiday provisions.
