

Overview:

CARP Youth Service is based in Killinarden, Tallaght. We support young people aged 12-25 years old that are struggling with addiction, at risk of engaging with drug use or living with someone that is struggling with addiction.

We support young people in a group capacity and/or on a one to one basis. CARP works from a CRA approach. We support young people to reduce their use of drugs at their own pace.

We have a youth specific space where young people can play computer games, have access to kitchen facilities or just hang out.

Young people can access the service through self-referral, referral from family or referral through an agency.

If you would like any more information please call 01-4626033 and ask for Grainne the youth worker.
