

Overview:

The Enniscorthy Community Youth Project offers welcoming and respectful youth spaces to young people aged 11-25 in our FDYS Youth Centre in Enniscorthy,

Outreach services are offered where there is an identified need to bring targeted young people to our service. While committed to the principles of youth work practice, all supports are delivered in a fun and collaborative way so that young people, and their needs, are at the heart of everything that the Enniscorthy project aims to achieve.

These youth programmes are delivered by two experienced and qualified youth workers and include thematic work such as self-esteem, mental health, sexual health, resilience and relationship building (e.g. making friends and life skills). We are open each evening after school and on Saturday afternoon.
