

Overview:

Cloyne Diocesan Youth Services (CDYS) Fermoy Youth Project works with young people aged between 10 to 24 years.

It enables young people to access out-of-school supports in their local communities to help them to achieve their full potential by strengthening their personal and social development outcomes.

CDYS respect the dignity of young people regardless of social, economic, or religious background. CDYS works to empower young people by providing a forum through which they can be heard.
