

## Overview:

St. Kevin's After School Service provides a range of out-of-school activities centred around fun, learning, laughter, team-building and trust. Open to all students of St. Kevin's YEP School, we run an After School Programme for three days a week during the school year.

We also run a Summer Programme for a week at the beginning of the school holidays. Students attend the service on a voluntary basis and are given a voice in making decisions about the activities we provide. These can include soccer, bowling, swimming, horse riding, currach rowing, along with various trips and excursions to activity centres and places of interest. We also provide opportunities for students to learn new skills. The opinions of our young people are important to us.

When you speak, we listen.
