

## Overview:

Bádóireacht is a unique boat building and rowing service for young people (age 14 – 18). It has been running successfully since 2002.

Young people have an opportunity to learn to row currachs, sail and to build their own boats and woodcraft. Through these activities young people grow in confidence, build resilience, they learn to contend with challenges, they learn to work in a team towards a common goal.

They have opportunities to engage with competitive and community events such as the Ocean to City race and the Lifelong Learning Festival.

In 2018 Bádóireacht was awarded a BeInclusive Sports Award by the European Commission for the inclusivity of its programme.
